

WORK EXPERIENCE

Freelance Web Developer & Designer – **January 2023 - Present**

- Initiating and overseeing diverse projects from inception to completion, prioritizing robust client communication throughout every phase of design and development.
- Collaborating closely with clients to breathe new life into established frameworks within the organization, streamlining workflows for heightened efficiency and error reduction.
- Revamping and reconstructing existing websites with the aim of driving increased traffic and engagement.

Interactive Developer – **July 2022**

- Taking on more responsibility in front-end projects, focusing on delivering top-notch work with a strong commitment to quality.
- Playing a key role in a dynamic team responsible for creating standalone applications and advanced booking platforms, pushing boundaries in technology.
- Leading an international team, bringing together different talents and perspectives to deliver high-quality work worldwide.
- Strengthening client relationships through improved communication, ensuring smooth collaboration and timely completion of project goals.

Junior Web Developer – **October 2019**

- Crafting top-notch HTML5 ad and email campaigns with a keen eye for quality.
- Thriving under tight deadlines, particularly when creating product display pages for esteemed clients like Samsung.
- Collaborating seamlessly within a team environment, ensuring collective success in achieving objectives.
- Meticulously adhering to a stringent QA process to uphold impeccable standards of work.
- Contributing to the enhancement and upkeep of WordPress sites through tasks like plugin updates and module development.
- Engaging in ongoing training opportunities to continuously expand expertise and skills.
